

Meritor Part

Meritor Part - Meritor is a leading global dealer which is proudly built on a one hundred year tradition of quality and service. They concentrate on a broad range of integrated systems, modules and parts to original equipment manufacturers and the aftermarket for the transportation and industrial trades.

Meritor values the needs of their customers to guarantee their success while priding itself in the company's unique energy and believes this output of energy to be their competitive advantage in their global operations. Meritor starts with a tradition which values diversity of people and their broad thought processes. Operating in 19 nations and hiring more than 11,200 people, Meritor encourages collaboration and innovation among a team of knowledgeable professionals.

By just employing future focused people, Meritor strongly thinks these top-caliber people would be able to rapidly get used to to changing surroundings and exhibit the commitment and performance required so as to reach results in the competitive materials handling market. The company empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor provides all of their staff different possibilities for personal and professional development.

Their Advanced Engineering team is at the forefront of components and system engineering which comprise axles, drivelines, suspension and braking systems intended for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This particular team is likewise responsible for supporting the requirements of their international engineering staff.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities which are situated around the globe in 19 countries and in 5 different continents.

The supplier development network is specifically situated to be able to support new business development. Regional teams are supported by global initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in each and every aspect of the trade. The DFSS or otherwise referred to as Design for Six Sigma ensures product reliability in every region. The team is even included transactional Green Belts who make use of Six Sigma tools to business techniques and apply lean techniques.
