

Clark Forklift Part

Clark Forklift Parts - Performing worldwide, there are now 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those operating in North America. Clark has five major lines of lift trucks across the globe, making it one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive designs of lift trucks, with components covering more than 120,000 specialized parts for all of its automated equipment. Your local Clark Supplier is your complete source for availability of all your components requirements supplied by Clark Totalift.

Clark's extraordinary Parts Distribution Facilities are conveniently stationed in Louisville, Kentucky, which serves both their consumers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to supply the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Clark Totalift has a very impressive intercontinental support network. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their customers predominates the materials handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of modernization in the industrial equipment and automated forklift industry. This exceptional dedication to safety is now a standard feature on every lift truck.

Clark's relentless mission to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the globe to be certified with the globally accepted quality standard ISO 9001 for every one of their production plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental limitations, thus placing them in a prevailing industry position.

Clark has selected the extremely economical and advantageous system of "Lean Production" for its assembly facilities and application of resources. This structure was established to acknowledge the most efficient approaches of production facility stewardship and ensuring maximum proficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to improve the effectiveness and excellence of their products while minimizing costs. The contemporary value engineering agenda combines innovative product improvement and offers superior consumer support and service within the industry.
